

AREAS OF EXPERTISE

DISTINCTIVE COMPETENCES

- **business law / company law**

We advise on incorporation of enterprises, restructuring, merger & acquisition (due diligence) and successor establishment and carry out all transactions, from contract drafting to coordinating and filing in the business register. In addition, we structure your investment and bring together private equity / mezzanine capital and innovative projects (shareholding, project financing, development of real estate, etc). We hold and manage domestic and foreign shares and assets on behalf of our clients and provide the trustor with all necessary support to ongoing servicing the trustor effectively with a specialized trust company. Moreover, we schedule and prepare general assemblies and shareholders meetings, draft all relevant (international) business contracts, enforce claims in court and arbitration proceedings (and put them down respectively) and optimize the claim management of companies. Last but not least we review the observation of legal provisions (legal compliance).

- **real estate transactions**

Checking of the land registry, drafting of purchase contracts, deeds of donation, lease-, condominium- and building contracts, calculating and discharging of all kinds of tax, fiduciary handling, acceptance of fiduciaries from credit institutions, protection of the contracting parties, secured by land registry charge.

- **protection of investors**

Over the last years we have engaged ourselves in issues regarding banking and equity market law intensively as well as compensation of investors and represent more than 1.200 “cheated investors” in numerous court litigations (primarily because they have invested in different financials based on misscounseling as well as because of failure to financial supervise properly, incorrect certificates given by auditing firms, inaccurate ratings, etc).

M&A Award | Austrian IP Law Firm of the Year | Corporate INTL Global Awards Winner

- **general civil law**

divorces, succession, last will, patient's provisions, product liability and damage compensation (for instants at industrial facilities, breach of contract, anticompetitive practice, etc), compensation for pain and suffering as well as immaterial damage, labour law, tenancy law, IT- and IP-law, e-commerce, license, copyright, patent law, protection of datas, etc.

USP

- We are entrepreneurs ourselves (and manage several independent enterprises) and therefore understand the concerns of entrepreneurs. We know what is relevant in daily business, we think entrepreneurial and advice and support preventative.
- **one-stop-shop:** With the presence of our academic and business consultants plus the interdisciplinary cooperation with economical advisers, management consultants, chartered accountants, notaries and financing-experts we are able to offer comprehensive solutions for extensive projects (one-stop-shop) – however, the sole contract responsibility remains with “LIKAR Law Offices”.
- **business contracts in english** – in a globalized world as a matter of course we draft and negotiate all contracts in English.
